**NUTRITION CORNER**

**Is Fish healthy for my child?**

Children need omega-3 fatty acids to build the structure of their brains starting from conception throughout our lifespan. Fish is also a good source of protein, iron, calcium, zinc and magnesium. It is recommended that adults eat 2-3 servings of fish weekly and kids should have 1-2 servings

Some ideas for serving fish at home include:

1. **Homemade fish sticks**: Dip strips of cod or salmon in egg whites, coat with whole-wheat breadcrumbs, bake and serve with honey mustard sauce.
2. **Pasta salad**: Make a salad of canned fish, pasta, frozen vegetables and light Italian dressing
3. **Fish Tacos**: Sprinkle Tilapia fillets with garlic and chili powder and grill or bake. Serve them in corn or whole wheat tortillas with sautéed peppers, onions and guacamole.
