

## IDEA Virtual Academy Program Overview

IDEA will provide a limited virtual learning program for ~700 students in Kinder through 6<sup>th</sup> grade in the 2021-2022 school year.

- Qualification Criteria from [SB 15](#) and IDEA Public Schools
1. The student must be currently enrolled at an IDEA Texas campus in Kindergarten, 1<sup>st</sup>, 2<sup>nd</sup>, 3<sup>rd</sup>, 4<sup>th</sup>, 5<sup>th</sup> or 6<sup>th</sup> grade. Pre-Kindergarten is not eligible under Texas's virtual learning law. IDEA Travis students are not eligible, either; although the school is operated by IDEA, it is a Midland Independent School District campus.
  2. In addition, the recently enacted Texas law that allows virtual learning in public school districts sets eligibility requirements based on students' academic performance and attendance. The full list of those requirements is below. Upon receiving a student's application, IDEA will consult our records to determine if the student meets these requirements; families will not have to determine that, and most will not need to produce academic or attendance records.
  3. While not an eligibility requirement, priority for virtual learning will be given first to students with a health condition known to increase the risk of illness from COVID-19, followed by students who live with someone with such a condition. The application requires confirmation of student or family health issues from a licensed physician.

The Texas Education Agency (TEA) has set academic criteria for virtual learning, and IDEA has interpreted those requirements for the grade levels served by IDEA's virtual learning program. *Students in Kindergarten, 1<sup>st</sup> and 2<sup>nd</sup> Grades must meet the following requirements:*

- Passed/been promoted from the previous school year
- Earned a C or better on their End of Year report card in math, science, social studies, reading and writing courses in 2020-21 School Year (except kindergarten)
- Scored at or above the 40<sup>th</sup> percentile in reading and math on beginning-of-year Renaissance STAR (Ren STAR) assessments.
- Be reading on grade level as assessed by Lesson 1 or higher of their grade's Reading Mastery Transformations (RMT) Instructional Level

*Students in 3<sup>rd</sup> Grade must meet the following requirements:*

- Passed/been promoted from the previous school year
- Earned a C or better on their end-of-year report card in math, science, social studies, reading and writing courses in 2020-21 School Year
- Scored at or above the 40<sup>th</sup> percentile in reading and math on beginning-of-year Renaissance STAR (Ren STAR) Assessments.

*Students in 4<sup>th</sup>, 5<sup>th</sup> and 6<sup>th</sup> Grades must meet the following requirements:*

- Passed/been promoted from the previous school year
- Earned a C or better on their end-of-year report card in math, science, social studies, reading and writing courses in 2020-21 School Year
- Passed all STAAR exams required for their grade level in 2020-2021
  - Current 4<sup>th</sup> Graders must have passed the 2020-21 reading and math STAAR exams

- Current 5<sup>th</sup> Graders must have passed the 2020-21 reading, writing and math STAAR Exams
- Current 6<sup>th</sup> Graders must have passed the 2020-21 reading, science and math STAAR Exams

OR

- If they did not take STAAR exams last year, students in grades 4-6 must have scored at or above the 40<sup>th</sup> percentile in reading and math on beginning-of-year Renaissance STAR (Ren STAR) assessments.

*For all students seeking to learn virtually, TEA has set eligibility criteria based on attendance, as well:*

- Last year, the student’s total unexcused absences must total less than 10% (~17 days) of the 2020-21 school year’s instructional days.
- To remain enrolled in virtual learning *this* year, students must maintain fewer than 10 unexcused absences in a six-month period.
- If more students apply, a lottery will be used to select students and health needs of student or family members will be used to prioritize selection.
- Instruction will be synchronous for 360 daily minutes via TEAMS and will also include asynchronous work for students using instructional software (Dreambox, AR, MyOn, Imagine) and PE videos daily for 90 minutes. Students will also participate in daily Move this World lessons to focus on socio emotional learning
