

At-Risk Policy

It is the School's expectation that all students will graduate from high school with a high school diploma; however, the School recognizes that some students from time-to-time may face hardships that put them at-risk of not graduating. For this reason, the School will begin complying with this policy on July 1, 2020.

Graduation Plan

The School shall develop a graduation plan for each student enrolled in grades nine through twelve, unless the student is which shall address the student's academic pathway to meet graduation requirements. The graduation plan shall be developed jointly by the student and a representative of the School. Parents shall also be invited to participate in the development of the graduation plan. The plan shall be updated annually until the student graduates with a high school diploma or is no longer enrolled in the School.

A graduation plan is intended to supplement an existing student success plan. In lieu of a graduation plan, a student with a qualifying disability may use an individualized education program ("IEP") that contains academic goals substantively similar to those in a graduation plan.

Criteria and Identification of At-Risk Students

A student may be considered "at-risk" of not graduating if the student is in grades nine to twelve and has either (a) demonstrated a lack of adequate progress in meeting the requirements for graduation specified in the student's graduation plan, (b) is at least one grade level behind his or her cohort age group, or (c) the student experiences a crisis that significantly interferes with his or her academic progress.

During the course of the year, teachers have the most frequent and meaningful contacts with students, and are therefore the most likely to first notice that a student is experiencing a crisis that is significantly interfering with the student's academic progress. If a teacher becomes aware of a student meeting the at-risk criteria, the teacher should notify the Principal or his or her designee of concerns. The Principal or his or her designee in turn will investigate and determine if the student is at-risk of not graduating.

At least once each academic year, the Principal or his or her designee will determine the names of any students who failed to demonstrate adequate progress in meeting graduation requirements or are one or more years behind their respective cohort age group.

Parental Notification Process

The Principal or his or her designee shall provide written notice to the parent of any student identified as at-risk of not qualifying for a high school diploma. The written notice shall include a description of the School's curriculum and graduation requirements, or, if applicable, the requirements for graduation pursuant to a student's IEP. The notice shall also detail the additional instructional and support services available to the student to earn a high school diploma. Additional instructional or support services will be made available to students at-risk of not graduating. Instructional or support services may include mentoring programs, tutoring, earning credit through demonstration of subject area competency and adjusted curriculum options, career-technical programs, mental or physical health services (to the extent required by an IEP or Section 504 Plan), family engagement and support services, or other services deemed appropriate

by the Principal or his or her designee.
