

Prevention of Lead Poisoning

Exposures to lead in doses much smaller than previously thought represent a definable risk to children's health and their ability to learn.

The School will attempt to control the use and maintenance of lead-bearing building products and avoid the use of any educational or maintenance procedures or products which may create lead exposures.

The School assures that a parent or guardian outreach program will be implemented to properly communicate information regarding risks from lead and other heavy metals in an attempt to help prevent exposures.

R.C. Chapter 3742.
