

School Health and Safety Inspections

School inspections, designed to identify conditions within the School and School building that may be injurious to the safety or health of building occupants, will be conducted at least semiannually by the local board of health, according to standards set by the local board of health.

If the local board of health serves an order upon the School to abate nuisances or correct conditions detrimental to health or well-being which are found upon School property, the person responsible for upkeep of the property shall abate the nuisance or condition within such reasonable fixed time as is set by the local board of health.

The School shall periodically review its policies and procedures to ensure the safety of students, employees, and other persons using the School building from any known hazards in the building or on building grounds that, in the judgment of the School, pose an immediate risk to health or safety. The School shall further ensure that its policies comply with all federal laws and regulations regarding health and safety applicable to school buildings.

The School shall at all times have in place a Chemical Hygiene Plan and an Asbestos Management Plan in accordance with federal law.

R.C. 3313.86, 3707.03, 3707.26, 29 CFR 1910.1450, 15 USC 2651 et seq.
