Addendum #1: RFP Questions & Answers / Pre-Proposal Presentation

Date: 10/30/24

RFP #7-EC2-0125 Ohio for E-Rate CAT2 Form 470 #250000250

To: All Prospective Vendors

The following questions were sent in response to the referenced Solicitation for further clarification. Questions and answers are listed below:

Question 1: Are the patch cables for Aps blue commscope?

Answer: Cables should be Green CAT6. Please note that the patch cables for Aps should be Commscope (or equivalent).

Question 2: Are multiple visits going to be required for any one of these RFPs? For example, installation of switches in one visit and APS in another.

Answer: The goal is to achieve all of the work in one trip to keep things as efficient as possible. This will be determined post-award. IDEA prefers a single visit for installation; however, this is subject to change based on logistics and availability of the equipment.

Question 3: Are walk-throughs being scheduled?

Answer: Walk-throughs can be scheduled with the awarded vendor during the network discovery phase. No walk throughs will be scheduled during the time the RFP is active. Walk-throughs will be scheduled post award.

Question 4: Is there a network map available to distribute?

IDEA Greater Cincinnati
2700 Glenway Ave.
Cincinnati, OH 45204

Answer: Site floor plans will be distributed to the awarded vendor during the network discovery phase. Due to security concerns site plans and/or diagrams will not be posted publicly as part of this RFP.
