Introduction

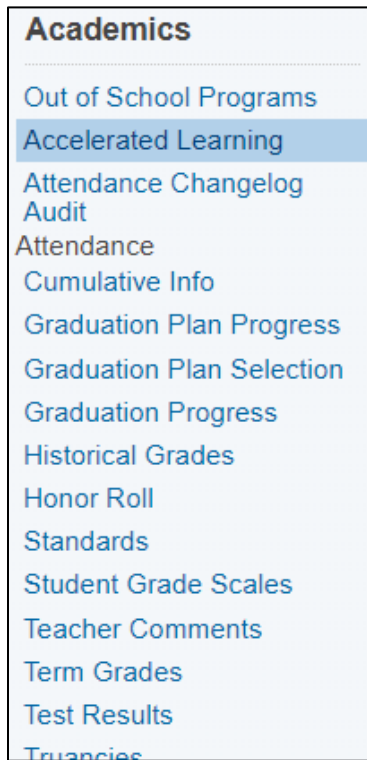

Accelerated Learning is a plugin developed in response to the [House Bill 4545](#) legislation passed in the state of Texas. The PowerSchool plugin exists within the student's page and will allow the user to input data regarding the supplemental instruction provided to the student for the four core subjects: ELA, Math, Social Studies, and Science.

Usage

To utilize the Accelerated Learning plugin, the user will need to log in through the following link: [TX PowerSchool Admin](#). If the user has both a Teacher and Administrator account, they will need to log out of their current account before attempting to reach the log in page of the other account. For example, a Teacher that is currently logged in to their teacher account will first need to log out in order to reach the administrator log in page linked prior.

To utilize the plugin, the user must first select a student using the search engine found in the PowerSchool Home page; inside of the Student's page, they will find a new link under **Academics**, *Accelerated Learning*.

The screenshot displays the 'Start Page' of the PowerSchool system. At the top, there is a search bar with 'Students' and 'All' dropdown menus, and a search input field containing 'student, test'. Below the search bar, a dropdown menu shows 'Student, Test' with a plus icon and 'Comments'. A navigation bar includes links for '9', '10', '11', '12', 'F', 'M', and 'All'. Below this, there are links for 'Stored Searches', 'Stored Selections', 'View Field List', 'Advanced', and 'MultiSelect'. The main content area is titled 'Current Student Selection (0)' and contains a message: 'There are no search results.' To the right of this message are buttons for 'Select By Hand' and 'Mass Enroll'. Below this section is a 'Daily Bulletin - Friday, September 30, 2022' section with a message: 'No bulletin items were found for this date.' and a link for 'Comments? Something to put in the bulletin? Email to'. The 'Scheduling Status' section shows 'Missing Schedule: 1'. The 'Legend' section shows 'Icons' and 'Date Entry'.

Links available may vary from user-to-user

Once selected, the user will land on the Accelerated Learning home page, with the “Home” tab selected by default.

A screenshot of a web application interface. At the top, there is a breadcrumb trail: "Start Page > Student Selection > Accelerated Learning". On the right, it says "Example High School" and "23-24 Year". The main heading is "Accelerated Learning". Below this, there is a student identifier: "Student, Test 11 108125904 A EXHS". A navigation bar contains tabs: "Home" (selected), "ELA", "Math", "Social Studies", and "Science". The main content area contains several form fields: "Parent Waiver:" with a dropdown menu; "Parent Opt out:" with a checkbox; "AEP Meeting Required:" with a dropdown menu; "AEP Plan On File:" with a dropdown menu; "AEP Meeting Date:" with a date input field (MM/DD/YYYY) and a calendar icon; "ELA Required:", "Math Required:", "Social Studies Required:", and "Science Required:" each with a dropdown menu; "Who Created:" with the value "Reyes, Jafet 09/30/2022"; and "Last Modified:" with the value "Reyes, Jafet 09/01/2023". A "Submit" button is located at the bottom right. A "Legend" section at the bottom left shows "Icons" and "Date Entry" with their respective symbols.

All users will have access to view these pages, but only some security groups will have access to modify records.

Create a Record

The user must first define which subjects are required to be tracked; this is done in the home page in the “required” fields. Subjects that are required will have their tabs shown in black text, while those that are NOT required will be red. This change will let the user know if they can create new entries for said subjects; if entries have already been created and the subject is later updated to not be required, users will continue to be able to view these records but will not be able to add new ones.

Data based on current Academic Year Context selection

[New](#)

Records are filtered by academic year, meaning that the user must ensure they are in the intended academic year to view the desired records. This can be seen on the top right of PowerSchool.

Entering new records in the subject tabs will timestamp both the current academic year selected and school in which the student is currently enrolled in; if the current academic year is 23-24, but the user has selected 22-23, the record will stamp 22-23 and be part of that pool of records. Total Instructional Time is provided in hours and minutes format at the top of each subject page and is aggregated by academic year.

Plugin is designed to be able to be used even at the District Office level, meaning that if a student were to transfer schools, those previous records will continue to appear for that same academic year.

In the case of an error with page-loading, the plugin will attempt to redirect itself to the Home tab to protect from faulty data being entered. If it appears as if PowerSchool redirected multiple times, do not worry as this is normal behavior.

Edit a Record

Users will be able to edit previous records by clicking on the “Edit” cell in the relevant row. Further information of the record is available to see, including who created the record and who last edited (if applicable).
