

**ADDENDUM No. 1 TO #10-CNPFS-1126 Fire Suppression and Kitchen Vent
Hood Cleaning
Request for Proposal – Child Nutrition Program Fire Suppression and
Kitchen Vent Hood Cleaning
Due Date: Tuesday, October 6, 2026 @ 2:00 PM CST**

ADDENDUM NO. 1 – DATE ISSUED: 09/30/2026

To all Potential Vendors:

In RFP 10-CNPFS-1126 Fire Suppression and Kitchen Vent Hood Cleaning, issued September 14, 2026, provided are answers to questions received by the deadline stated in the IFB.

Questions & Answers:

Q1. Can vendors bid on certain locations or does it have to be all locations?

A1: Vendors can bid on certain locations as pertaining to the services they provide. Vendors can also bid on all locations as well.

Q2: Does the hood cleaning have to be included?

A2: Hood cleaning does not have to be included in the submission of the RFP. We will take it into consideration when we do the evaluation, however if a vendor submits for one service- either fire suppression or vent hood cleaning, the RFP will still be accepted.

Q3. Can IDEA Public Schools provide inspection reports to provide more information on the current hood systems that we have installed.

A3: We can schedule site visits with the vendors to review the hood systems.

Q4. Do we get a list of the last services and when they were provided?

A4. Yes, IDEA Public Schools will provide the list of the last services performed.

Q5. May a respondent utilize a qualified subcontractor to perform the inspection, testing, maintenance, and repair of the kitchen fire suppression systems while serving as the prime contractor under the agreement? If so, are subcontractors required to be identified in the proposal submission, and are there any additional documentation or approval requirements that must be provided with the proposal?

A5. Per the RFP, respondents are allowed to utilize a qualified subcontractor to perform inspections and testing. They are required to be identified in the proposal submission. The only documentation that we would request would be performing background checks and fingerprints for all techs who are going to provide on-site services per our contract.
